

3D Twins Expression Challenge (“3D TEC”) Database License Agreement

Introduction: The goal of our biometrics research is to develop new techniques, technology, and algorithms for the automatic recognition of humans. As part of this research, we are involved in an ongoing effort to collect a database of biometric imagery. The database is meant to aid research efforts in the general area of developing, testing and evaluating human recognition algorithms. The University of Notre Dame du Lac (henceforth, “UND”) owns copyright of the collection of biometric images and serves as the source for the database distributed to participants in the 3D Twins Expression Challenge (henceforth, the “3DTEC database”).

Release of the Database: To advance the state-of-the-art in biometrics, the 3DTEC database obtained by UND will be made available to researchers on a case-by-case basis. All requests for the 3DTEC database must be submitted in writing to the UND Principal Investigator by the researcher’s Institution on behalf of the individual researcher or research unit (henceforth the “Researcher”). To receive a copy of the imagery, a legal officer of Researcher’s institution must sign this document and agree to observe the restrictions listed below. In addition to other possible remedies, failure to observe these restrictions may result in revocation of permission to use the data as well as denial of access to additional databases distributed by UND. Submission of a completed license does not guarantee access. Distribution of data may be restricted by the terms of US law. Data are retrieved via the Internet. Other modes of distribution and applicable fees for such distribution are made available at the sole discretion of UND.

Consent: Researcher agrees to the following terms and conditions:

1. Redistribution: Without prior approval from the UND Principal Investigator, the 3DTEC database, in whole or in part, will not be further distributed, published, copied, or disseminated in any way or form whatsoever, whether for profit or not.
2. Modification and Commercial Use: Without prior approval from UND, the 3DTEC database, in whole or in part, may not be modified or used for commercial purposes. The license granted herein is specifically for the internal research purposes of Researcher, and Researcher shall not duplicate or use the disclosed 3DTEC database, its contents, or any seal, logo, mark, or phrase associated with or owned by UND to manufacture, promote, or sell products or technologies (or portions thereof) either directly or indirectly for commercialization or any other direct for-profit purpose without the prior written permission of UND.
3. Requests for the Biometrics Database: All requests for the 3DTEC database will be forwarded to the UND Principal Investigator by Researcher.
4. Publication Requirements: Those seeking to include renderings of more than 10 images from the 3DTEC database in reports, papers, and other documents to be published or released must first obtain approval in writing from the UND Principal Investigator.
5. Citation: All documents and papers that report on research that uses the 3DTEC database should acknowledge the use of the database and include appropriate citation.
6. Publications to UND: A copy of all reports and papers that are for public or general release that use the 3DTEC database must be forwarded immediately upon release or publication to the UND Principal Investigator.
7. Indemnification: Researcher agrees to indemnify, defend, and hold harmless the University of Notre Dame du Lac and its Board of Trustees, officers, employees and agents, individually and collectively, from any and all losses, expenses, damages, demands and/or claims based upon any such injury or damage (real or alleged) and shall pay all damages, claims, judgments or expenses resulting from Researcher’s use of the 3DTEC database.

Authorized Signatory for Researcher

SIGNATORY NAME and TITLE (printed)

SIGNATURE and DATE

ORGANIZATION NAME, ADDRESS, and CONTACT E-MAIL ADDRESS

Transmit executed license to UND Principal Investigator via email or fax:

Email: cvrl@nd.edu

Fax: 1-574-631-9260

Surface mail: Professor Patrick Flynn, Dept. of Computer Science and Engineering, 384 Fitzpatrick Hall, University of Notre Dame, Notre Dame, IN 46556 USA
